

Write down five qualities that make you/your design service special. Be prepared to explain how you might communicate those qualities through your logo.

The Five Qualities I have is:

**Patiences:** I take the quality time to develop concepts that is identified with the person or their company. Patiences with critics and corrections etc. Clients change their mind rapidly and you have to have to patience to bare with them!

**Excellence:** Operating in excellence give clients the as surety that the job will get done right. Paying attention to details is Key even the smallest things. Often time i can feel lazy but i think about my name and reputation and immediately address the smallest thing!

**Customer Service:** Providing customer service to clients. Calling provide updates etc..

**Professionalism:** When designing I go with all efforts to make sure the artwork is professional as possible! I love the feeling of producing professional art work.. I desire to work for major cooperation's

**Expeditiously:** Although I have tons of projects due, When in a good flow I can finish super fast with providing qualities above.
